ADVOCACY

The CHRO Voice in Washington

HR Policy has an excellent reputation as an issue expert in Washington, D.C. among policymakers on Capitol Hill and in federal agencies. HR Policy brings together the collective voice of its membership to provide substantive input, which means proposals from HRPA to policymakers carry particular weight.

Washington Representatives Program

Dedicated to providing support to government relations professionals on critical public policy issues, this program helps coordinate and maximize the effectiveness of member company representation on the Hill and in the agencies.

“To me there is no competition. HRPA is the source and voice of what is happening legislatively and how to stay informed, be competent in my role as a result leading HR for my company and stay ahead of trends and having a group of peers with whom to convene.”

— Christy Pambianchi, Executive VP & Chief People Officer, Intel Corporation
